At Scarborough Health Network (SHN), we all have a role to play in shaping the future of care for patients across our three hospitals - Birchmount, Centenary and General - and our eight satellite sites.

Now, through MySHN, staff, physicians, patients, families, volunteers and community members can do their part by contributing directly to the areas they are passionate about and where they want to equip our outstanding teams with the tools needed to deliver exceptional health care to Scarborough.

SHN belongs to the community, and now it's **our** time to do **our** part for **our** hospitals and the 14 department areas who serve our patients each and every day. With your support, we can shape the future of care for Scarborough together.
