

The blueprint for Uxbridge's healthy future starts with **YOU.**

Uxbridge Hospital is transforming to ensure our community can be cared for long into the future.

But did you know?

The provincial government doesn't fund all the equipment and infrastructure needed to realize the vision for our new hospital.

That's where you come in!

Together, we can ensure the best health care is available right here in Uxbridge.

Make a gift this holiday season that will bring our plan to life for you, your family and generations of Uxbridge residents.
