

BRIDLETOWNE NEIGHBOURHOOD CENTRE

1-in-10

Canadian adults have chronic kidney disease

6,000+

patients served by SHN's nephrology program, which is...

...the **LARGEST** regional nephrology program in Canada!

Scarborough is a "diabetes hotspot", with a growing and aging population that is predisposed towards kidney disease

60% OF ALL SCARBOROUGH RESIDENTS ARE **FIRST-GENERATION IMMIGRANTS**

70% OF ALL SCARBOROUGH RESIDENTS ARE **VISIBLE MINORITIES**

40% INCREASE IN NUMBER OF **SCARBOROUGH RESIDENTS OF THE AGE OF 60**

29

additional dialysis stations required at SHN to meet demand over the coming decade alone

The new **Bridletowne Neighbourhood Centre** will be a first-of-its-kind community hub for the treatment, prevention and ongoing management of chronic kidney disease:

50%

estimated reduction in cost as a result of this transformational model of care

40%

increase in capacity due to additional resources and infrastructure

AN EXPANDED DIABETES AND CHRONIC KIDNEY DISEASE MANAGEMENT AND TREATMENT CLINIC — WITH ADDITIONAL DIALYSIS CAPACITY

Added infrastructure will equip the community with better:

Disease Prevention & Management

A NEW YMCA COMMUNITY CENTRE

Weight & Nutritional Management

VARIOUS OTHER COMMUNITY AGENCIES, INCLUDING CHILD CARE

Education & Resources

Total Number of Dialysis Units

138

Pre- and Post-Bridletowne

2017-18

2024-25
